

February 16, 2007

BPA has recalled its **History and Synopsis of BPA's Fish & Wildlife Mitigation paper**, dated February 9, 2007, to allow for a more thorough internal review. The version that had been posted on Monday, February 12, as part of BPA's FY07-09 Fish and Wildlife Program project selection decision, did not reflect adequate internal review and as such, should not have been released without broader review. Given that a major rewrite of this document may occur, a rewritten version is not anticipated for the next several weeks.
