

# Release Notes for Pisces version 3.4

Release Date: **August 13, 2009**

Welcome to the latest release of Pisces, version 3.4.

**Pisces** is a web-enabled software application used by BPA and its Fish & Wildlife program participants to track and manage projects throughout the Columbia River Basin. Pisces allows contractors and BPA project managers to collaborate on project definition and ongoing project management over the internet.

Want to find out more about what Pisces is and what you can do with it? Start here:

<http://www.efw.bpa.gov/contractors/usingpisces.aspx>

Changes in this release include:

## Application

**Photo Attachments – New “Public” access level added.** Up until now, the View Permission options available for a photo attachment did not include **Public (anyone can view via web)**, a setting available for other attachment types. With this release, you can now make your photos publicly available by selecting this setting. Pisces and other public BPA reporting tools will make increased use of photos in future. Look for an email from us on this subject soon.
